SALE & PURCHASE

Shipping is a global business. Be it a Panamanian mortgage, a Liberian owning company or a Bahamian-flagged vessel, our notaries are very familiar with the common and not-so-common maritime jurisdictions around the world.

Whether you act for an owner, lender or manager, we are able to notarise a wide range of documentation for sale and purchase, new-build deliveries or refinancing transactions. Aware of the time-critical nature of your clients' deals, our notaries do everything to ensure a hassle-free closing.

LITIGATION & CASUALTIES

With thousands of ship movements every day, the potential for something to go wrong is huge. When the worst does happen, you need a quick and responsive firm of notaries to help protect your clients' interests around the world.

At Vanner Perez, we can help your clients enforce arbitral awards, meet court deadlines and release arrested or detained vessels. Our flexible and responsive team is always available to carry out same-day notarisations, so you can act quickly to safeguard your clients' operations.
