SALE & PURCHASE

Whether a bill of sale, appointment of authorized person or mortgage registration, our notaries are very familiar with the common and not-so-common paperwork that is required around the world for the sale and purchase of a superyacht.

The superyacht business is fast-paced. Your clients expect a swift sale, purchase or new-build delivery. Aware of the time-critical nature of your clients' deals, our notaries will make sure your documents are processed quickly and accurately to ensure a hassle-free closing.

VAT AND CHARTERING

For many superyacht owners and charterers, Europe is an extremely popular cruising ground. However, the complicated VAT and cruising licence regulations can be a minefield. Having documents correctly notarised and legalised is vital to ensure that your clients can sail freely in EU waters.

At Vanner Perez, our notaries can assist with the notarisation of Master's authority letters, vessel purchase invoices and powers of attorney to help you obtain cruising permits and/or reclaim VAT on behalf of your clients.
